Technical Skills and Interests

Relevant Coursework: Data Structures, OOPS, DBMS, Operating System, Computer Networks

Languages: C++, C, JavaScript, TypeScript, Python, SQL

Technologies & Frameworks: ReactJS, NodeJS, ExpressJS, Redux Toolkit, AWS, Next.js, HTML5, CSS, Tailwind CSS

Developer Tools: Git, Github, MongoDB, PostgreSQL, Postman, Vercel, Render

Experience

AWS Capstone Project | **Dec 2025 – Feb 2026**
Virtual Internship Program - AWS Academy *Online*

- Designed and deployed a real-world scalable home service management platform on **AWS EC2 using Flask and DynamoDB**, implementing role-based authentication and end-to-end service request workflow — gaining hands-on experience in AWS cloud deployment and backend integration.
- Architected scalable cloud infrastructure using **AWS IAM, DynamoDB, and SNS**, applying secure access control and event-driven notifications with optimized NoSQL data modeling.

Projects

Smart Travel & Rental Platform - Voyara AI | *Stripe, Next.js, TypeScript, MongoDB* | **July 2026 - Aug 2026**

- Engineered an AI-driven rental platform featuring a smart Travel Concierge fusing live web data with host insider tips for personalized itineraries, review sentiment analysis, AI Host Assistant and Mapbox GL spatial exploration.
- Implemented an end-to-end Stripe checkout and booking engine with dynamic fee computation, alongside a resilient Cloudinary cloud storage pipeline for zero-egress media delivery.

Skills Exchange Platform – SkillVerse | *Socket.io, Vite, React.js, Node.js, MongoDB* | **July 2025 – Sep 2025**

- Developed a MERN stack skill swap platform featuring authenticated user workflows, lifecycle-controlled swap requests, and integrated real-time chat functionality.
- Built as a solution to the Odoo Hackathon 2025 (Virtual Round) problem statement; selected among the **Top 250 teams out of 19,000+ registrations**, implementing robust state management using TanStack React Query with automatic cache invalidation and consistent cross-page UI synchronization.

Education

KIET Group of Institutions, Ghaziabad **2023 – 2027**
B.Tech (Computer Science and Engineering(Artificial Intelligence))- 8.67 CGPA (Current) *Ghaziabad, UP*

DAV Public School, Anpara **2023**
Class XII - 94.16% (PCM, CBSE) *Sonbhadra, UP*

Sacred Heart Convent School, Obra **2021**
Class X - 97% (CBSE) *Sonbhadra, UP*

Achievements

- Solved 250+ Coding Questions across different platforms.
- Qualified Gate 2026 (CS) in first attempt, securing AIR 5820 (Score: 529).
- Ranked among the Top 1% contributors in GirlScript Summer of Code (GSSoC) 2026, with 40+ pull requests successfully merged.
- Out of 19000 registrations in Odoo Hackathon 2025, got selected in top 250 teams.
- Participated in Inter-DAV Nationals in Chess held in Jalandhar, Punjab (2023)

Certifications

- AWS Certified Solutions Architect - Associate (Apr 2026) | - Amazon Web Services
- AWS Certified Cloud Practitioner (Nov 2025) | - Amazon Web Services
- Full Stack Web Development Completion Certificate (Sep 2024) | - Apna College
